

Community Update

Flood and Disaster Recovery Survey

Council are undertaking a community survey around the October 2022 Flood Event. This survey is targeted at Moirá Shire residents who were impacted by this event. The results of the survey will help Council to understand how

prepared the community is for flood events, what are we doing well currently, what results are we getting, where are we seeing success and what we can do better.

These results will be used to guide future disaster recovery planning,

analyse current flood and disaster recovery methods, establish baseline metrics and assess competency of utilised practices. A further survey will be conducted in 2024.

The results of this survey will be shared on our website after the closing date of **Monday 31 July 2023**.

Visit our website for more information and to complete the survey.

Council Transfer Stations

Transfer stations will only accept domestic household waste, which is waste that is generated in a household through normal day to day activities.

Building/demolition or commercial/industrial waste loads will now be directed to the Cobram landfill for disposal.

Sites will not accept loads suspected of containing asbestos or hazardous materials. Visit our website for more information.
