1. Purpose

The 2025/26 Annual Budget ('the Budget') serves as a financial blueprint that ensures the strategic priorities outlined in the Council Plan 2025-2029 ('Council Plan') are translated into actionable initiatives and services that benefit the community. The budget ensures that these initiatives and services are delivered in a financially sustainable manner, operating within the fiscal boundaries as defined in Moira Shire Council's ('Council') Financial Plan 2025-2035.

The *Local Government Act 2020*, Section 94 requires Council to prepare and adopt a budget for each financial year and the subsequent three (3) financial years (at a minimum) that gives effect to the key initiatives and services detailed within the Council Plan. The budget must also include prescribed indicators and measures of service performance, specify the total amount to be raised through general rates, municipal and service charges, and indicate the rating method in which these will be raised.

This section describes how the Budget links to the achievement of the Community Vision and the Council Plan within the Integrated Strategic Planning and Reporting Framework. This framework guides the Council in identifying community needs and aspirations over the long term (Community Vision), medium term (Council Plan) and short term (Annual Budget) and then holding itself accountable (Annual Report).

1.1

Strategic context

Through its Strategic Planning Framework, Council aims to ensure all activities and financial resources align with the Moira Shire community's aspirations, needs, and expectations.

Key planning documents within the Strategic Planning Framework include:

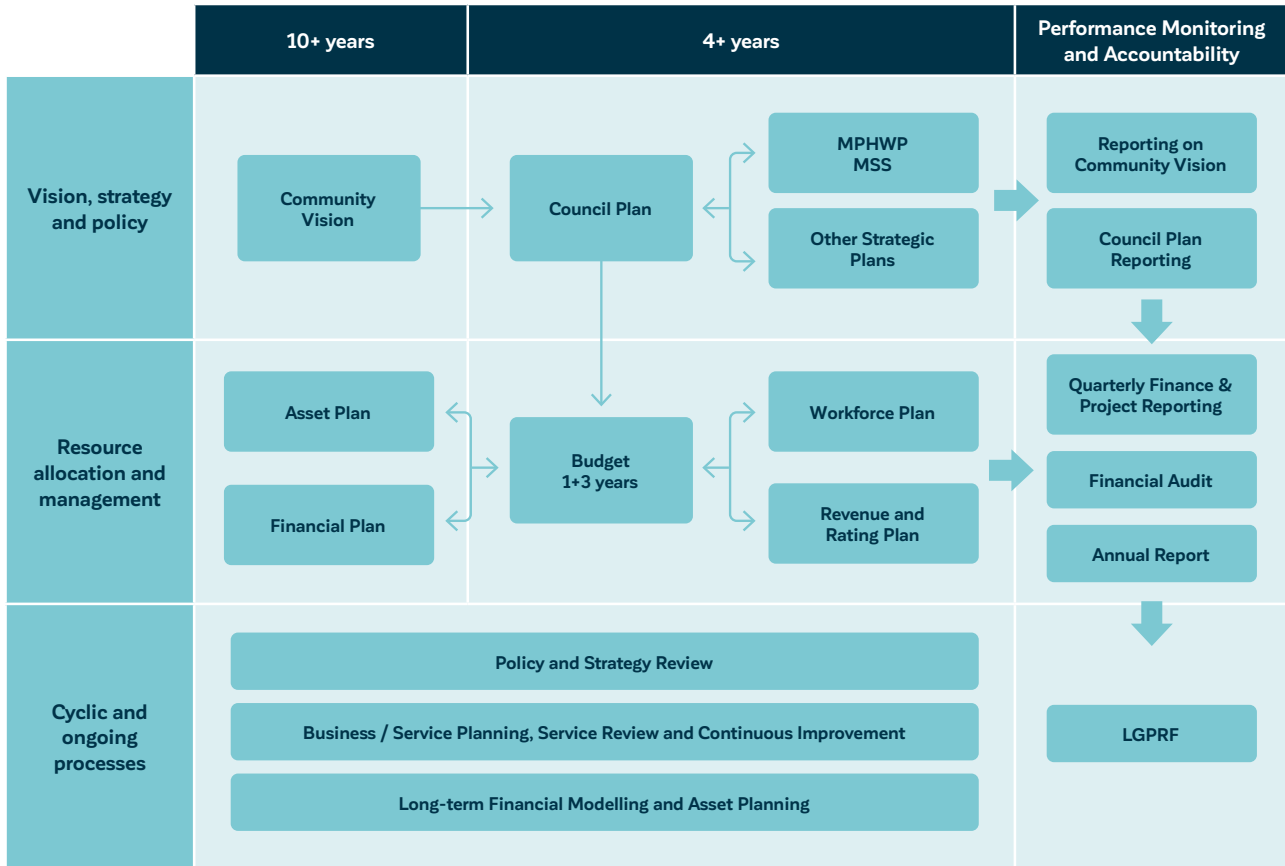

- Moira2045 Community Vision
- Council Plan 2025-2029
- Financial Plan 2025-2035
- Revenue and Rating Plan 2025-2029
- Asset Plan 2025-2035
- Annual Financial Plan and Budget

The *Local Government Act 2020* requires councils to exercise sound financial management, which includes:

- Managing revenue, expenses, assets, liabilities, investments, and financial transactions according to financial policies and strategic plans.
- Prudently monitoring and managing financial risks considering economic circumstances.
- Ensuring financial policies and strategic plans, including the Revenue and Rating Plan 2025 - 2029, provide stability.
- Keeping accounts and records that explain the Council's financial operations and position.

This is all brought together through an integrated planning approach, as highlighted in the diagram below.

2. Introduction

Moira Shire Council's 2025/26 Annual Budget represents our commitment to delivering high-quality services and infrastructure for the community while maintaining financial sustainability in a challenging and changing environment.

In shaping this budget, we have focused on getting the balance right – keeping essential services running smoothly, while also delivering key projects that will make a real difference for our community.

This budget will see Council continue to deliver on its flagship projects including the Yarrawonga Library, Numurkah's northern flood protection levy and the Yarrawonga Multisport Stadium. These are all long-awaited projects which respond to community needs and reflect community aspirations.

We know how important it is for residents to continue receiving the services that make daily life better. A large portion of this year's budget continues to support the delivery of these essential services as prioritised under our Council Plan 2025-29. We have also maintained funding for community support programs, recreation, environmental management, and planning – all of which play a vital role in building a liveable, connected and resilient community. Some of the highlights in the budget include:

- \$15.5 m for roads, footpath and drainage renewal, construction and improvement
- \$6.5m for maintenance and upgrades of Council's reserves, parks and gardens, skate parks, town entrances and open spaces
- \$1.6m for maternal and child health services
- \$1.1m for tourism and visitor services to support local tourism and promote Moira Shire as a destination.

We are delivering this budget in the context of increasing cost pressures, particularly with the proposed introduction of the State Government's new Emergency Services and Volunteer Fund. We are aware this State Government levy will place additional pressure on households.

The Budget has been developed within the Victorian Government's Fair Go Rates Cap of 3%. Council continues to be deeply aware of cost of living pressures residents and businesses are facing and we have taken a responsible and measured approach to ensure we can absorb rising costs without compromising core service delivery or placing undue pressure on ratepayers.

This budget continues our disciplined approach to financial management, ensuring we can meet current needs without compromising our future capacity to deliver. It is a clear reflection of our commitment to sustainability, service, and delivering for our community – now and into the future.

3.2

Financial overview

Budget Summary:

- **Total Operating Revenue:**
\$90,283,000
- **Total Operating Expenditure:**
\$76,861,000
- **Total Capital Budget:**
\$46,591,000

Whilst the 2025/26 Budget is forecasting a surplus result of \$13.4 million, the underlying result is forecast to be a small deficit of \$0.13 million. This metric is important from a financial sustainability perspective as it highlights Council's ability to self-fund its ordinary operations by removing the impact of non-recurrent income such as developer contributions and non-current capital and operating grants.

A 1.7% - 2% underlying result is desired for future periods as this result would allow Council to build up adequate reserves to fund future rehabilitation and aftercare works associated with the landfill operations, whilst also generating sufficient income to be cost recoverable on ordinary operations. The target underlying result decreases to 0.3% by 2032/33 as this is the expected year of closure for current landfill cells in operation. Refer to section 6 of the Budget for Council's financial indicators and a summary of the strategic initiatives to improve the long-term financial performance and health of Council.

Revenue Sources:

- **Rates and Charges:**
\$49,810,000
- **State and Federal Government Grants:**
\$32,133,000
- **Other revenue sources:**
\$8,340,000

Council's 2025/26 budget is proposing to raise \$90.3 million in total revenue to fund its services and capital delivery program. Council's budgeted revenue streams are heavily concentrated on General Rates and Charges as well as State and Federal Government Operating and Capital Grants, which make up 55% and 35% of total revenue, respectively. Figure 2 highlights that this concentration and revenue structure has been common in historical financial years. Council's Revenue and Rating Plan 2025-2029 addresses this concentration and the importance of diversifying revenue streams to grow own-sourced revenue and improve long-term financial sustainability.

Figure 2 – Historical and Forecast Revenue Trends

Operating Expenditure Breakdown:

The following resources have been allocated to each strategic pillar within the Council Plan, to deliver on the operating strategic initiatives. Refer also to section 3 of the budget for a summary of Council's services and their alignment to the Council Plan.

- **Community:**
\$7,925,441
- **Environment:**
\$12,888,730
- **Liveability:**
\$27,875,807
- **Prosperity:**
\$1,868,736
- **Leading Organisation:**
\$15,634,218

Capital Expenditure Breakdown:

Resources have been allocated to the following asset expenditure types during the 2025/26 financial year to ensure that Council is delivering on the capital program detailed within the Asset Plan 2025 – 2035:

- **Renewal:**
\$16,078,000
- **Upgrade:**
\$2,715,000
- **Expansion:**
\$1,350,000
- **New:**
\$26,448,000

Major projects within these asset expenditure types include:

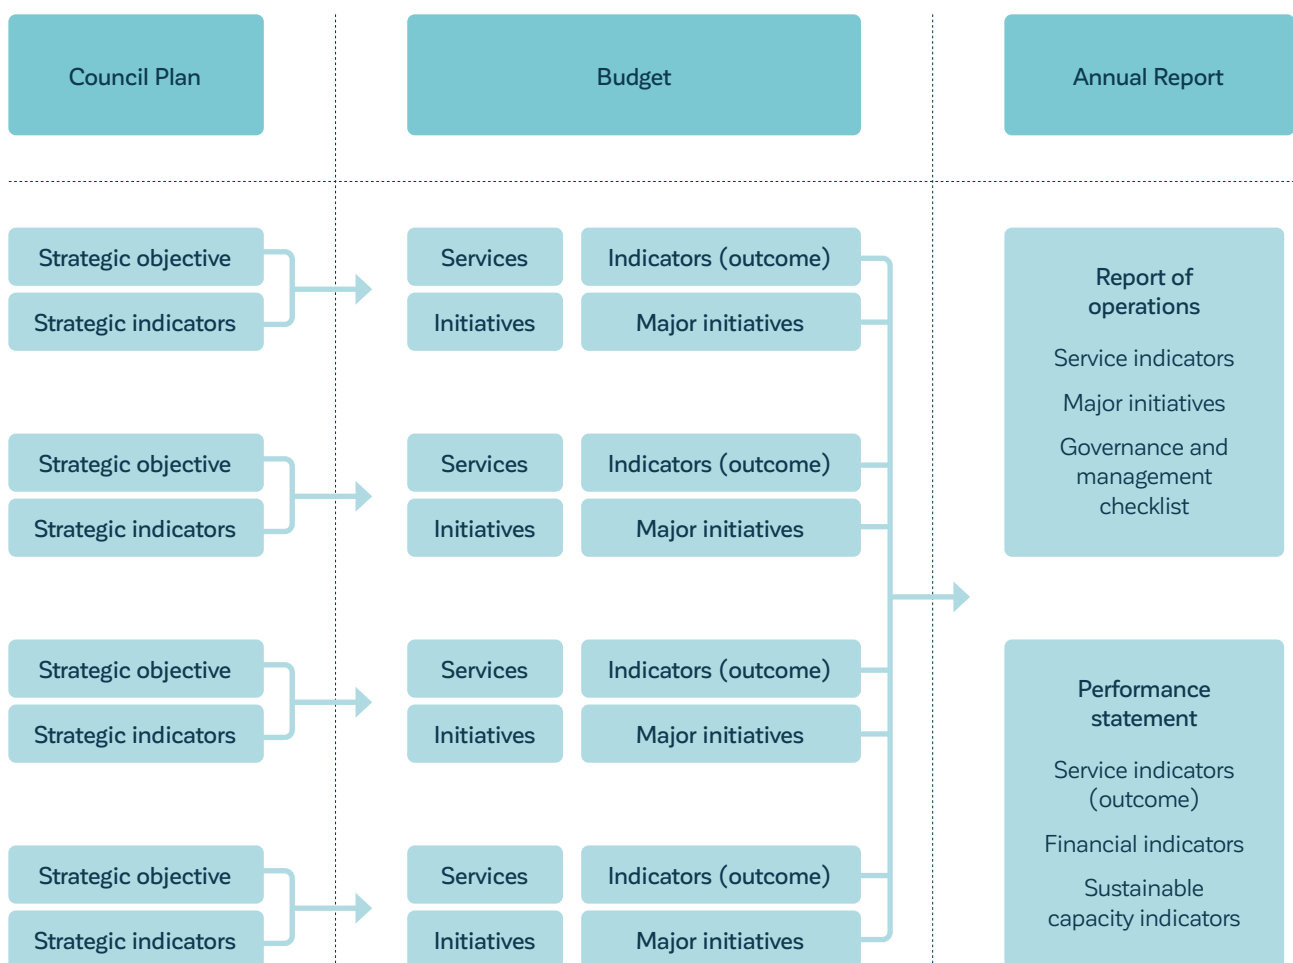

Project Description	Location	Budgeted Project Spend	Asset Expenditure Type
Library, Events and Performance Precinct	Yarrawonga	\$5,295,000	New
Multisport Stadium	Yarrawonga	\$13,273,000	New
Flood Mitigation Levee	Numurkah	\$2,790,000	New
Road Restoration Works	Municipality wide	\$6,930,000	Renewal
Bourkes Bridge	Kotupna	\$1,407,000	Renewal
Bartrops Bridge	Nathalia	\$920,000	Renewal
Hardcourt Redevelopment	Waaia	\$800,000	Renewal
Drainage Strategy Designs	Cobram South	\$150,000	New
Landfill Cell Construction	Cobram	\$1,350,000	Expansion

Refer to section 6.4 of the Budget for a detailed summary of the 2025/26 capital program.

4. Council Services

This section provides a description of the services and initiatives to be funded in the Budget for the 2025/26 year and how these will contribute to achieving the strategic objectives outlined in the Council Plan. It also describes several initiatives and service performance outcome indicators for key areas of Council's operations.

Council is required by legislation to identify major initiatives and service performance outcome indicators in the Budget and report against them in the Annual Report to support transparency and accountability. The relationship between these accountability requirements in the Council Plan, the Budget and the Annual Report is shown below.

6. Notes to the financial statements

This section presents detailed information on material components of the financial statements.

6.1 Comprehensive Income Statement

6.1.1 Rates and charges

Rates and charges are required by the Act and the Regulations to be disclosed in Council's budget.

As per the Local Government Act 2020, Council is required to have a Revenue and Rating Plan which is a four year plan for how Council will generate income to deliver the Council Plan, program and services and capital works commitments over a four-year period.

In developing the Budget, rates and charges were identified as a key source of revenue. Planning for future rate increases has therefore been an important component of the financial planning process. The Fair Go Rates System (FGRS) sets out the maximum amount councils may increase rates in a year. For 2025/26 the FGRS cap has been set at 3.00%. The cap applies to both general rates and municipal charges and is calculated on the basis of council's average rates and charges.

The level of required rates and charges has been considered in this context, with reference to Council's other sources of income and the planned expenditure on services as well as operating and capital initiatives detailed in the Council Plan.

To fund the delivery of the Council Plan objectives the average general rate plus municipal charge will increase by 3.00% in line with the rate cap. This will raise total general rates and municipal charges for 2025/26 to \$37,943,480 (excluding supplementary rates).

6.1.1(a) The reconciliation of the total rates and charges to the Comprehensive Income Statement is as follows:

	2024/25 Forecast \$'000	2025/26 Budget \$'000	Increase/ (decrease)	
			\$'000	%
General rates*	29,378	31,054	1,676	5.7%
Municipal charge*	6,901	7,030	129	1.9%
Waste management charge	10,030	11,010	981	9.8%
Supplementary rates and rate adjustments	415	350	(65)	(15.6%)
Interest on rates and charges	143	155	12	8.4%
Revenue in lieu of rates**	251	211	(40)	(16.0%)
Total rates and charges	47,117	49,810	2,693	5.7%

*These items are subject to the rate cap established under the FGRS

**Revenue in lieu of rates includes income received under s94 (6A) of the *Electricity Industry Act 2000* for renewable energy generators (solar farms) as well as income received under the *Cultural and Recreational Lands Act 1963*.

Despite the rate cap being 3.00%, compared to the 2024/25 forecast, General Rates appear to be increasing by 5.7%. The reason for this variance being greater than rate cap is due to the 2024/25 supplementary rates being included in the base calculation for the 2025/26 General Rates. This increases the base average general rates compared to the total rates levied during the 2024/25 financial year.

6.1.1(b) The rate in the dollar to be levied as general rates under section 158 of the Act for each type or class of land compared with the previous financial year

Rural Vacant Land	122	124	2	2.0%
Total amount to be raised by general rates	29,378	31,054	1,676	5.7%

Despite the rate cap being 3.00%, compared to the 2024/25 forecast, General Rates appear to be increasing by 5.7%. The reason for this variance being greater than rate cap is due to the 2024/25 supplementary rates being included in the base calculation for the 2025/26 General Rates. This increases the base average general rates compared to the total rates levied during the 2024/25 financial year.

6.1.1(d) The number of assessments in relation to each type or class of land, and the total number of assessments, compared with the previous financial year

Kerbside organic waste collection service	147.00	188.00	41.00	27.9%
Environmental charge	134.00	134.00	-	0.0%

*Available only to eligible properties with 6 or more people living in the property or properties with two or more children in nappies.

Council has undertaken a detailed review of its pricing for kerbside collection services to ensure the services are cost recoverable and align to the Minister's Good Practice Guidelines for Service Rates and Charges. This review found that Council has already implemented 67% of the requirements under the guidelines. Council's Revenue and Rating Plan outlines a transition plan to fully implement the guidelines over a four-year period.

Kerbside organic waste collection service is expected to increase due to the contract for the disposal and collection changing in December 2024. This change resulted in an increase to the service collection frequency, which went from fortnightly collection to weekly resulting in an increase to the annual cost of this service. To recover the increase in service cost, Council is proposing to increase the kerbside organics collection service charge by \$41 per bin.

Kerbside recyclable collection service is also expected to increase due to the charge for the Glass Collection Service now being priced into the annual service charge. No charge for the Glass collection service was included in the annual service charge for 2024/25.

Kerbside landfill collection is expected to decrease in price, which is due to the change in collection frequency that went from a weekly collection to a fortnightly. However the cost savings from this change in service frequency are largely offset by increases in EPA levies for landfill refuse, which is expected to increase by 26.5% in 2025/26.

6.1.1(i) The estimated total amount to be raised by each type of service rate or charge, and the estimated total amount to be raised by service rates and charges, compared with the previous financial year

Type of Charge	2024/25	2025/26	Increase/ (decrease)

In December 2023, the Minister for Local Government released the Good Practice Guidelines of Service Rates and Charges ('the Guidelines') made under section 87 of the Local Government Act 2020. The Guidelines set out what constitutes good practice by councils in the determination and declaration of Service Rates and Charges under Section 162 of the Local Government Act 1989 and any other matters related to compliance and accountability by councils.

For those councils unable to comply in 2024/25, the Minister expected that they will demonstrate a pathway for compliance in future budgets.

Council has undertaken a detailed review of its pricing for kerbside collection services to ensure the services are cost recoverable and align to the Minister's Good Practice Guidelines for Service Rates and Charges. This review found that Council has already implemented 67% of the requirements under the guidelines. Council's *Revenue and Rating Plan 2025 - 2029* outlines a transition plan to fully implement the guidelines over a four-year period.

6.1.1(j) The estimated total amount to be raised by all rates and charges compared with the previous financial year

	2024/25	2025/26	Increase/ (decrease)	
	\$'000	\$'000	\$'000	%
General rate	29,378	31,054	1,676	5.70%

See 6.1.1 (h) for comments relating to movements in kerbside collection pricing, which has a direct impact on the amount of revenue raised through service charges.

6.1.1(k) Fair Go Rates System Compliance

Council is required to comply with the State Government's Fair Go Rates System (FGRS). The table below details the budget assumptions consistent with the requirements of the Fair Go Rates System.

	2024/25	2025/26
Total Rates and municipal charge	\$ 36,278,949	\$ 38,083,572
Number of rateable properties	18,935	19,216

Budgeted Supplementary Rates	\$ 414,566	\$ 350,000
Budgeted Total Rates and Municipal Charges Revenue	\$ 36,693,515	\$ 38,433,572

6.1.1(l) Any significant changes that may affect the estimated amounts to be raised by rates and charges

There are no known significant changes which may affect the estimated amounts to be raised by rates and charges. However, the total amount to be raised by rates and charges may be affected by:

- The making of supplementary valuations (2025/26: estimated \$350,000 and 2024/25: \$410,000)
- The variation of returned levels of value (e.g. valuation appeals)
- Changes of use of land such that rateable land becomes non-rateable land and vice versa
- Changes of use of land such that residential land becomes business land and vice versa.

6.1.1(m) Differential rates

General Rates

A general rate be declared in respect of the 2025/26 Financial Year. It be further declared that the general rate be raised by the application of differential rates. Each differential rate will be determined by multiplying the Capital Improved Value of rateable land (categorised by the characteristics described below) by the relevant rate in the dollar in Note 6.1.1(b).

Use of each differential rate:

Revenue from the differential rates will be used to fund items of expenditure described in the Budget adopted by Council. The levels of the differential rates are the levels which Council considers are necessary to achieve the objectives specified above.

The classes of land which are subject to each differential rate and the uses are set out below.

Differential category	2024/25 differential rate	2025/26 differential rate	Increase/ (decrease) [movement]	Increase/ (decrease) (movement %)
Residential Building	100%	100%	0%	0%
Residential Vacant	200%	200%	0%	0%
Rural Building	100%	100%	0%	0%
Rural Vacant	200%	200%	0%	0%
Farm Land	100%	95%	-5%	-5%
Commercial or Industrial Building	140%	140%	0%	0%
Commercial or Industrial Vacant	200%	250%	50%	25%

Refer below to the objectives of each differential, which also explains any rate movement from the previous financial year.

Objective of each differential rate:

To ensure that Council has adequate funding to deliver on the strategic objectives of the Council Plan, whilst ensuring that the rating burden is levied in a manner that is fair and equitable, a differential rate be declared for rateable land having the respective characteristics specified below, which characteristics will form the criteria for each differential rate so declared:

6.1.1(m) Differential rates

a) Residential Building Land

Any land within the municipal district:

- (i) on which a building designed or adapted for human occupation is erected; and
- (ii) which does not have the characteristics of:
 - Farm Land
 - Commercial Building Land
 - Industrial Building Land; or
 - Rural Building Land.

b) Residential Vacant Land

Any land within the municipal district:

- (i) on which no building designed or adapted for human occupation is erected; and
- (ii) which does not have the characteristics of:
 - Farm Land
 - Commercial Vacant Land
 - Industrial Vacant Land; or
 - Rural Vacant Land.

Compared to Residential Building Land, a higher differential rate is applied to encourage development of the land.

c) Rural Building Land

Any land within the municipal district:

- (i) which is more than 2 and less than 10 hectares in area;
- (ii) which is located within a Rural Residential Zone or Zones under the Moira Planning Scheme;
- (iii) on which a building designed or adapted for human occupation is erected; and
- (iv) the use of the land:
 - does not have a significant and substantial commercial purpose or character;
 - does not seek to make a profit on a continuous and repetitive basis from its activities on the land; and
 - is not making a profit from its activities on the land or does not have a reasonable prospect of making a profit from its activities on the land if it continues to operate in the way that it is operating.

d) Rural Vacant Land

Any land within the municipal district:

- (i) which is more than 2 and less than 10 hectares in area;
- (ii) which is located within a Rural Residential Zone or Zones under the Moira Planning Scheme;
- (iii) on which no building designed or adapted for human occupation is erected; and
- (iv) the use of the land:
 - does not have a significant and substantial commercial purpose or character;
 - does not seek to make a profit on a continuous or repetitive basis from its activities on the land; and
 - is not making a profit from its activities on the land or does not have a reasonable prospect of making a profit from its activities on the land if it continues to operate in the way that it is operating.

Compared to Rural Building Land, a higher differential rate is applied to encourage development of the land.

e) Farm Land

Any land within the municipal district that is "farm land" within the meaning of section 3(1) of the Valuation of Land Act 1960.

The proposed differential rate is 95% of the General Rate for Residential Building Land. The differential rate is proposed in consideration of the rating principles of equity and fairness as it applies to farming land. This is in recognition that farming enterprises generally require large masses of land with a corresponding large capital improved value relative to other business enterprises.

6.1.1(m) Differential rates

f) Commercial or Industrial Building Land

Any land within the municipal district:

- (i) on which a building designed or adapted for commercial or industrial purposes is erected;
- (ii) which is used primarily for commercial or industrial purposes; and
- (iii) does not have the characteristics of:
 - Farm Land
 - Residential Building Land; or
 - Rural Building Land.

The proposed differential rate is 140% of the General Rate for Residential Building Land and recognises the impact that commercial and industrial activities has on Council infrastructure and seeks to achieve vertical equity by passing more of the rate burden to properties capable of generating income.

g) Commercial or Industrial Vacant Land

Any land within the municipal district:

- (i) on which no building designed or adapted for commercial or industrial purposes is erected;
- (ii) which is, by reason of its zoning under the Moira Planning Scheme, capable of being used primarily for commercial or industrial purposes; and
- (iii) does not have the characteristics of:
 - Farm Land
 - Residential Vacant Land; or
 - Rural Vacant Land.

The proposed differential rate is 250% of the General Rate for Residential Building Land, which is an increase from the previous differential rate of 200%. The increased differential rate is to encourage development of the land.

Cultural and Recreational Land

Section 4 of the *Cultural and Recreational Land Act 1963* requires that rates for recreational lands shall be levied at "such amount as the municipal council thinks reasonable having regard to the services provided by the municipal council in relation to such lands and having regard to the benefit to the community derived from such recreational lands".

The amount of revenue in lieu of rates payable in respect of each recreational land to which the Act applies will be determined by multiplying the Capital Improved Value of the recreational land by the applicable Cultural and Recreational rate-in-the-dollar ('RID') as determined by Council. The table below details the discount applied from the Residential Building RID to derived the Cultural and Recreational RID. The determination of this discount is documented with Council's *Revenue and Rating Plan 2025 - 2029*.

	2024/25	2025/26	Variation
Cultural and Recreational	97%	56%	-41.0%
Cultural and Recreational RID	0.00204681	0.00122396	-40.2%

Municipal Charge

A municipal charge be declared in respect of the 2025/26 Financial Year.

The municipal charge be declared for the purpose of covering some of the administrative costs of Council.

The municipal charge be in the sum of \$390.00 for each rateable land (or part) in respect of which a municipal charge may be levied.

It be confirmed that the municipal charge is declared in respect of all rateable land within the municipal district in respect of which a municipal charge may be levied.

Annual Service Charge

An annual service charge be declared in respect of the 2025/26 Financial Year.

The annual service charge be declared for the collection and disposal of refuse from land.

The annual service charge be based on the criteria set out below:

- (i) \$524.00 per annum for each property to which a 240L kerbside landfill collection service is provided;
- (ii) \$262.00 per annum for each property to which a 120L kerbside landfill collection service is provided;
- (iii) \$175.00 per annum for each property to which a 80L kerbside landfill collection service is provided;
- (iv) \$164.00 per annum for each property to which a kerbside recyclable collection service is provided;
- (v) \$188.00 per annum for each property to which a kerbside organic waste collection service is provided; and
- (vi) \$134.00 per annum for an Environmental Charge to each property that has the capacity to generate waste, which can be deposited by a ratepayer or resident at a landfill or waste transfer or disposal facility; except where the rateable land is 'farm land' within the meaning of s 3(1) of the *Valuation of Land Act 1960* and is a 'single farm enterprise' within the meaning of section 174(4) of the *Local Government Act 1989*.

Rebates & Concessions

It be recorded that Council grants to each owner of rateable land who is an "eligible recipient" within the meaning of the *State Concessions Act 2004*, a rebate for the 2025/26 financial year to the maximum amount advised by the Department of Families, Fairness and Housing.

Incentives

No incentive be declared for early payment of the general rates, municipal charge and annual service charge declared.

Payment

All rates and charges be paid in accordance with section 167(1) and (2) of the *Local Government Act 1989*, with Council offering two fixed payment methods, being:

- Annual (15 February 2026); and
- Quarterly (30 Sept 2025, 30 November 2025, 28 February 2026 and 31 May 2026).

Alternatively, ratepayers have the flexibility to choose a payment frequency that suits their individual circumstances by scanning the QR code made available on the Annual Valuation and Rates Notice. All direct debit arrangements set up through Council's third party provider will have an end date of 31 May, with the exception of the annual instalments, which are due by 15 February 2026.

Consequential

It be confirmed that, subject to sections 171 and 172 of the *Local Government Act 1989*, Council will require a person to pay interest on any rates and charges which:

- (i) that person is liable to pay; and
- (ii) have not been paid by the date specified for their payment.

The Finance Manager be authorised to levy and recover the general rates, municipal charge and annual service charges in accordance with the *Local Government Act 1989* and *Local Government Act 2020*.

6.1.2 Statutory fees and fines

	Forecast	Budget	Increase/ (decrease)	
	2024/25 \$'000	2025/26 \$'000	\$'000	%
Town planning fees	672	655	(17)	(2.6%)

Other statutory fees and fines	108	72	(36)	(33.3%)
Total statutory fees and fines	1,636	1,531	(105)	(6.4%)

Town planning fees are expected to reduce in 2025/26 as development activity diminishes. Building services fees are expected to reduce due to increased use of Private Building Surveyors by building applicants.

6.1.3 User fees

	Forecast	Budget	Increase/ (decrease)

6.1.4 Grants

Operating Grants

Non-recurrent - Commonwealth Government

Economic development and tourism grant is related to Council's successful application under the Commonwealth Government Regional Precincts and Partnerships Program to develop a Thompsons Beach Cobram Precinct Plan. The 2024/25 forecast for Roads grant relates to works to be carried out by Department of Transport at Strathmerton

Non-recurrent - State Government

The Waste Management grants relates to the rollout of the fourth bin during 2024/25.

Capital Grants

Non-recurrent - Commonwealth & State Government

Recreation, leisure and community facilities grants predominately relate to the development of the Yarrawonga Multisport Stadium, which is funded by both State Government (\$2 million) and Federal Government (\$3.3 million).

For a detailed breakdown of capital funding for individual projects refer to Note 6.4 Capital Works Program.

6.1.5 Contributions

	Forecast 2024/25	Budget 2025/26	Increase/ (decrease)	
	\$'000	\$'000	\$'000	%
Monetary	394	1,157	763	193.5%
Non-monetary	1,000	1,000	-	0.0%
Total contributions	1,394	2,157	763	54.7%

The increase in monetary contributions represents community contributions for the proposed acquisition of the Yarrawonga Primary School land and buildings.

6.1.6 Other income

	Forecast 2024/25	Budget 2025/26	Increase/ (decrease)	
	\$'000	\$'000	\$'000	%
Interest on investments	1,869	1,422	(447)	(23.9%)
Reimbursements and subsidies	319	114	(205)	(64.3%)
Legal costs recouped	51	66	15	29.9%
Energy rebate scheme income	96	89	7	(7.3%)
Sale of recyclables income	105	106	1	0.6%
Volunteer services	350	337	(13)	(3.7%)
Property income	441	443	2	0.4%
Other income	140	128	(12)	(8.3%)
Total other income	3,371	2,705	(666)	(19.8%)

Interest on investments is expected to reduce following an expected fall in interest rates in line with movements in the RBA cash rate, and a reduction in the level of cash held as the backlog of capital works is completed. Reimbursements and subsidies forecast in 2024/25 includes insurance payouts from one-off claims.

6.1.7 Employee costs

	Forecast 2024/25	Budget 2025/26	Increase/ (decrease)	
	\$'000	\$'000	\$'000	%
Wages and salaries	22,053	22,920	867	3.9%
Apprentices and trainees	288	399	111	38.7%
Superannuation	2,491	3,033	542	21.8%
WorkCover	922	1,262	340	36.9%
Fringe benefits tax	161	125	(36)	(22.5%)
Other employee costs	508	458	(50)	(9.9%)
Total employee costs	26,423	28,197	1,774	6.7%

Wages and salaries increase is driven by increases contained within the Moira Shire EBA No.10 which are aligned to the Rate Cap of 3.0%. Apprentices and trainees increase due to timing of apprentices completing their apprenticeships and commencement of new apprentices. Superannuation increase in line with the increase in the Superannuation Guarantee Charge to 12% from July 2025. Workcover premium is due to the impact of past claims under the scheme, Fringe benefits tax reduction is due to improved oversight over private use of Council vehicles.

6.1.8 Materials and services

	Forecast 2024/25	Budget 2025/26	Increase/ (decrease)

Waste Management	7,432	7,611	179	2.4%
October 2022 Flood community recovery	496	50	(446)	(89.9%)
Total materials and services	28,183	28,384	202	0.7%

Decreased budget allocation for the October 2022 Flood community recovery program with the final activities to be completed in 2025/26. Reductions in general supplies and services across various programs and activities, legal expenses reduction due to finalisation of issues raised in the Commission of Inquiry, and information technology costs reduced due to rationalisation of IT software across Council.

Increased budget allocation in general maintenance costs for parks & gardens and roads maintenance works. Consultant costs increased for the grant funded Thompsons Beach Cobram Precinct plan offset by reduced use of consultants across Council. Increase in waste management kerbside collection contractor costs offset by one-off costs forecast in 2024/25 to rollout the 4-bin collection program. Increase in Building maintenance due to additional electrical safety works to be conducted in 2025/26. Community and recreation increase due to increases in contracted aquatic and sports facilities management costs.

Other expenses	77	70	(8)	(9.8%)
Total other expenses	3,681	3,625	(56)	(1.5%)

DTP road works contribution for works to be carried out by Department of Transport at Strathmerton for which Council is to receive grant funding. Community contributions reduction due to contributions associated with the October 2022 Flood recovery being finalised. The reduction in interest on unwinding of discount on provisions due to change in accounting treatment of Landfill airspace.

6.2 Statement of Financial Position

6.3 Statement of changes in Equity

6.3.1 Reserves

Moira Shire maintains the following reserves for future capital works:

Recreational open space reserve - established in accordance with the *Subdivision Act 1988* and used to develop strategically located parks and reserves for the benefit of the residents in the municipality.

Car parking reserve - established under the *Planning and Environment Act 1987* and used to provide adequate car parking spaces within the municipality.

Net gain native vegetation reserve - established under the *Planning and Environment Act 1987* and used to fulfil Council's obligation concerning planting of native vegetation.

Botts Road – Murray Valley Highway intersection reserve - established to allocate funds provided by developers to improving the intersection of Botts Road and the Murray Valley Highway in Yarrawonga.

Yarrawonga Wetlands drainage reserve - established to allocate funds provided by developers to improving the drainage within the Yarrawonga wetlands.

Yarrawonga Five Ways intersection reserve - established to allocate funds provided by developers to improving the five ways intersection of Woods, South, Cahills and Old Wilby Roads and Gilmore Street Yarrawonga.

Carried forward capital works reserve – established to recognise capital works previously approved by Council in prior year's capital works programs but not completed at the end of the financial year.

6.4 Capital works program

This section presents a listing of the capital works projects that will be undertaken for the 2025/26 year, classified by asset type and funding source. Works are also disclosed as current budget or carried forward from prior year.

Total	46,591	26,448	16,078	2,715	1,350	15,565	1,057	22,969	7,000

All capital works noted above are excluding GST.

Council's 2025/26 budgeted capital program is \$46.6 million, \$8.02 million of which is carried forward from the 2024/25 financial year. Whilst this is a significant capital program, 46% of the programs total cost is attributable to three major projects, which include the Yarrawonga Library, Events and Performance Precinct, the Yarrawonga Multisport Stadium and the Numurkah Flood Mitigation Levee. The proposed renewal budget of \$16.08 million ensures Council is meeting its asset management requirements detailed within the *Asset Plan 2025 – 2035*, with the renewal ratio budgeted to be 119.9% for 2025/26.

The *Asset Plan 2025 – 2035* provides Council's 10-year capital works program. Whilst Council officers use a range of resources to determine the best estimate of future costs to deliver capital projects, the veracity of these estimates will not be known until detailed designs and a full project scope is performed in the future. The 10-year capital program includes \$41.9 million for drainage projects, some of which are currently undergoing detailed planning, including:

- Yarrawonga West
- Cobram East; and
- Numurkah Northeast Retention Basin

Once detailed designs and estimates are complete, the total cost of these projects may materially differ from estimates allowed in future periods. This may impact on the level of Council's contribution and borrowings to fund the proposed drainage projects.

7.1 Targeted performance indicators

The following tables highlight Council's current and projected performance across a selection of targeted service and financial performance indicators. These indicators provide a useful analysis of Council's intentions and performance and should be interpreted in the context of the organisation's objectives.

The targeted performance indicators below are the prescribed performance indicators contained in Schedule 4 of the Local Government (Planning and Reporting) Regulations 2020. Results against these indicators and targets will be reported in Council's Performance Statement included in the Annual Report.

Key to Forecast Trend:

- + Forecasts improvement in Council's financial performance/financial position indicator
- o Forecasts that Council's financial performance/financial position indicator will be steady
- Forecasts deterioration in Council's financial performance/financial position indicator

Notes to indicators

1. Governance

Council expects to see continuing improvement in this indicator through plans to increase communication of Council meeting decision and greater transparency through Council reporting on key issues.

2. Statutory planning

Council expects to see an improvement in this indicator through resolving staff resourcing issues in the Planning Department. This will include engaging contractors for a short-term arrangement to support the team when a higher volume of applications are received.

3. Waste management

Council expects to see an improvement in this indicator following the implementation of a fourth glass-bin option as well as changes made to the landfill bin collection frequency. In order to achieve the State Government's target of 80% of waste diverted from landfill by 2030, communication and education on sustainable waste management practices will continue to be introduced to the Community.

Key to Forecast Trend:

- + Forecasts improvement in Council's financial performance/financial position indicator
- o Forecasts that Council's financial performance/financial position indicator will be steady
- Forecasts deterioration in Council's financial performance/financial position indicator

Notes to indicators

1. Liquidity

Council anticipates a decline in working capital ratios as the 10-year capital works program progresses. Over the life of the Financial Plan an additional \$18.2 million in borrowings is expected to be drawdown to fund important capital projects as well as maintain working capital within the acceptable target range. The working capital metric is monitored ongoing to ensure Council is operating in a financial sustainability manner.

2. Asset Renewal

In the context of financial sustainability, the asset renewal funding ratio is one of the key indicators used by Council. A ratio of 100% means that Council is allocating sufficient funds to cover the cost of renewing its assets, ensuring that assets are being renewed and replaced optimally helping to maintain their functionality and extend their lifespan. The above projections indicate that Council's renewal ratio will fall below the target range by 2028/29. As outlined in section 2.3.1 of Council's *Financial Plan 2025 - 2035*, to improve this metric Council will:

- Prioritise asset renewal over investment in new assets.
- Undertaken detailed assessments of Council assets to better understand and prioritise renewal works based on asset condition.
- Rationalise Council's assets to identify and dispose of surplus assets that may otherwise be renewed.

3. Rates concentration

Rates concentration is a measure of Council's reliance on rates revenue. This metric increases over the term of the Plan indicating that Council is becoming more dependent on its rates as a key source of income. The trend of this metric is a reflection of Council's limited ability to generate new sources of income as well as more conservative income growth assumptions being applied to other sources of income such as recurrent operating grants.

Rating effort is a measure of how much Council has leveraged the perceived wealth within the rate base through the levying of rates. A declining rate effort is an indication that rates levied are not keeping up with property valuation increases and therefore the level of perceived wealth within the rate base. This declining metric is a symptom of rate capping, which is assumed to increase rates at a lesser rate than the growth in property valuations.

7.2 Financial performance indicators

The following table highlights Council's current and projected performance across a range of key financial performance indicators. These indicators provide a useful analysis of Council's financial position and performance and should be interpreted in the context of the organisation's objectives.

The financial performance indicators below are the prescribed financial performance indicators contained in Part 3 of Schedule 3 of the Local Government (Planning and Reporting) Regulations 2020. Results against these indicators will be reported in Council's Performance Statement included in the Annual Report.

Key to Forecast Trend:

- + Forecasts improvement in Council's financial performance/financial position indicator
- o Forecasts that Council's financial performance/financial position indicator will be steady
- Forecasts deterioration in Council's financial performance/financial position indicator

Notes to indicators

1. Operating Position

Whilst remaining within the target range, this metric is expected to decline over time due to rate capping assumptions not aligning with valuation growth assumptions for Council's infrastructure assets. This leads to depreciation forecasts and renewal expenditure requirements increasing faster than revenue growth. To improve long-term financial performance, Council will:

- Conduct integrated planning and service reviews to assess the value, cost, and affordability of services, and consider alternative service delivery models.
- Perform an asset rationalisation exercise to identify and dispose of surplus or non-renewal assets.
- Benchmark user fees and charges against other Councils and the market to maximise returns from existing assets and services.
- Investigate new revenue opportunities over the life of the *Revenue and Rating Plan 2025 - 2029*.

2. Obligations

Initial increase in obligation metrics is due to expected borrowings to be drawn down to fund the development of the Yarrawonga Library and Multisport Stadium capital projects. This metric declines overtime additional borrowings are drawn down. Proposed new borrowings over the term 2025/26 - 2034/35 is \$18.2 million. These borrowings are proposed to fund the development of the following important capital projects:

- Yarrawonga Multisport Stadium (\$7M)
- Yarrawonga Town Hall Precinct (\$1.5M)
- Cobram Scott Reserve Pavilion (\$1.7M)
- Drainage Investment Program (\$8M)

8. Schedule of Fees and Charges

This appendix presents the fees and charges of a statutory/non-statutory nature which will be charged in respect to various goods and services during the financial year 2025/26. In accordance with Council's Revenue Collection and Hardship Policy, fees will not be waived or reduced unless this is the subject of a Council approved policy, resolution or this authority is delegated to a Council officer. Council has provided discounted fees and charges for community and not-for-profit organisations in certain circumstances to support community focused outcomes at a reduced cost.

Fees and charges are based on information available at the time of publishing and may vary during the financial year subject to any changes in Council's policy or legislation.
