Moira Shire Profile

Moira Shire is strategically positioned on the iconic Murray River, two and a half hours north of Melbourne and close to major regional centres.

It covers an area of 4,045 square kilometres and is bounded by the Murray, Goulburn and Ovens Rivers. Moira Shire comprises the four main centres of Cobram, Nathalia, Numurkah and Yarrowonga, as well as 18 smaller towns and communities.

In 2021 the shire's population was 30,522 and is projected to reach more than 34,670 by 2045.

Moira Shire has a number of significant environmental assets such as the three river systems as well as the Barmah National Park.

This national park forms part of the world's largest River Red Gum forest, which is an internationally listed Ramsar site, part of the Register of the National Estate plus an Icon Site for the Living Murray program.

These assets are significant for their biodiversity values and play a key role in the economy and liveability of the Shire.

Irrigated agriculture is the Shire's economic engine and is inextricably linked to the region's waterways and secure supply of high-quality water.

The Shire is home to a variety of agricultural industries including horticulture, cereal, oilseed, livestock, and dairy production.

Volunteering

Volunteering provides a strong link between community participation and positive individual, economic and community wellbeing.

The benefit to the community from people volunteering is significant, with volunteers the lifeblood of many community groups. Some of our most vital community services involve volunteers. By volunteering, not only will you be supporting a worthwhile cause, but you also have the chance to develop further skills, meet new people and feel good about being involved.

To find out about local volunteering services, speak with one of our Community Development Officers by phoning 03 5871 9222.

Council Services

Animal Registration

Moira Shire residents living in a residential area, commercial area, or on any rural property which comprises less than five hectares are allowed a maximum of two domestic dogs and two domestic cats without requiring a permit.

All cats and dogs aged 3 months or more must be registered with Council.

Animal registrations are due on 10 April every year. Registrations can be done over the counter at one of our Customer Service centres, or via our eService's portal on Council's [website](#).

Fire Restrictions

For many people, burning-off vegetation is an effective way to prepare and maintain properties. Moira Shire does not allow burning off in residential areas.

A fire can be lit in a fire pit or suitable container in a residential or commercial area only if it is for cooking, warmth, entertaining or cultural purposes, but never for the sake of burning off.

You must register a burn-off by calling 1800 668 511, or by registering online at <https://firepermits.vic.gov.au/>. This will ensure the CFA won't be called out unnecessarily to a burn-off. Moira Shire is part of the CFA District 22.

For current incidents and fire restrictions call VicEmergency Hotline: 1800 226 226.

Planning and Building

What is Planning?

The Planning Department provides statutory services to the community such as advice and assessing planning permits for new uses and developments against the [Moira Planning Scheme](#). We are also required to enforce the planning scheme, and our compliance officer works with the community to achieve this.

Strategic planners ensure the planning scheme is kept up to date and continues to facilitate the future growth of the Moira Shire in a coordinated manner.

Customers are encouraged to email their planning enquiries through to Council with sufficient detail to ensure our team of planners can provide meaningful written advice.

Alternatively you can call or book an appointment with a planner.

P: 03 5871 9222.

Investment and Business

Moirá Shire is a vibrant and progressive regional municipality in which to live, work and invest.

The region is supported by industries such as agriculture, horticulture, food manufacturing, commercial manufacturing, transport and tourism to name a few.

How can we help?

We support existing and new businesses and industries through:

- Encouraging job creation, business growth and investment in the region
- Attracting new businesses and capital investment
- Capitalising on visitor expenditure
- Enhancing lifestyle opportunities for all residents.

Starting or growing your business?

Whether you are a new or an established business, you will probably need a permit to operate - you may even need more than one. Our self-assessment tool will give you a better understanding of the type of permits you may need.
