

KINNAIRDS WETLAND WALK MAP

Red Gum Walk

Distance: 3.5 kilometre loop track
Time: 1 hour
Start: Either the southern or northern entry and visit the spillway boardwalk and northern bird hide.
Features: A range of panoramic views around the entire Kinnairds Wetland and passes many large River Red Gums (*Eucalyptus camaldulensis*) some of which are more than 300 years old.

Wetland Walk

Distance: 2 kilometre loop trail
Time: 30 minutes
Start: Northern entry point or join it from the Red Gum Walk.
Features: Long views over the water quality wetlands on the eastern side of Kinnairds Wetland including a spillway boardwalk and eastern birdhide.

Young Red Gum Trail Link

Distance: 1 kilometre
Time: 15 minutes
Start: Southern carpark and picnic shelter
Features: Links southern carpark and picnic shelter to the spillway boardwalk travelling through River Red Gum regeneration forest. The forest provides a different habitat type for resident and migratory bird species and wildlife.
