- Promoting and implementing universal design principals.
- Advocating for improved public transport.

## Leadership & Opportunity

- Ensuring new strategies and plans consider disability access and inclusion principals.
- Encouraging employment of people with disabilities in the community and the Council.
- Promoting ongoing benefits of engagement and volunteering in the community.
- Identifying leadership and involvement for people with disabilities.

## Participation & Inclusion

- Maximising engagement with people with disabilities, making strategic and

operational decisions especially regarding access and inclusion.

- Promoting inclusive activities and events.
- Housing and independence.

## Respect & Recognition

- Influencing attitudes and educating the community through celebration.

The Plan was developed with a focus on existing resources and incorporating access and inclusion principles into everyday decision making, project design and policy development. The plan and its actions rely on the existing and development of new relationships with the community, service providers and other interested organisations.
