*Effluent lines length:

Application Requirements: Complete this form and submit the following information: Application to construct/install a new onsite wastewater system. Site plan showing the location of the existing dwelling/s, ancillary buildings/structures, landscape features/structures (e.g. swimming pools, stormwater drains, waterways etc), existing septic system location and effluent disposal area. Floor plan of the dwelling detailing proposed changes (e.g., location of new bedroom/bathroom). Information detailing the proposed minor alterations to the system e.g. specifications of the replacement fixture. A plan detailing proposed changes to the septic system (only if making changes to the septic system e.g., adding/relocating irrigation lines). Application to alter an existing wastewater system. Site plan showing the location of the existing dwelling/s, ancillary buildings/structures, landscape features/structures (e.g. swimming pools, stormwater drains, waterways etc), septic system location and effluent disposal area. Details of the existing septic system including type and method of effluent disposal. Floor plan of the dwelling detailing proposed changes (only if making changes to the dwelling e.g., location of new bedroom/bathroom). A plan detailing proposed changes to the septic system (only if making changes to the septic system e.g., adding/relocating irrigation lines).		Description of the proposed minor alteration: E.g., replacing the vanity unit in the master bedroom ensuite)
